SCHE CARE GROUP (CECG)

The Mesra Pelajar Programme

THE MESRA PELAJAR PROGRAMME

The Mesra Pelajar Programme is an initiative of the CECG, where we mutually support our undergraduate and postgraduate students. We understand that students may face challenges or problems in their academic and personal lives, such as personal relationships, health issues, job prospects, and future uncertainties. We want to lend a helping hand and listen to our students' concerns.

Do not hesitate to contact or see any of the Mesra Pelajar Programme's advisors if you need someone to talk to.

The SChE Care Group (CECG)

We believe that students and staff are our most precious resources and assets at the School of Chemical Engineering (SChE), USM. To care for and promote the health and well-being of our members, we have created the CECG. The group aims to foster an environment where each of us could discover and develop our potential, talents and capabilities. We plan to grow and achieve excellence together.
